Bourbon Circuit Court.

Judge R. L. Stout resumed the trial of Commonwealth cases after Thanksgiving holiday.

FRIDAY.

The first case on trial was that of the Commonwealth vs. Tobe Rice, a negro, under indictment for shooting at another without wounding. Rice was represented by Judge Harmon Stitt, and after hearing the testimony the jury brought in a verdict of acquittal.

Sam Calamese, a negro charged with cutting Lon McDuffy in a difficulty which occurred on Eighth street, was placed on trial and after hearing the testimony, was given one year in the penitentiary.

Jesse Murray, a negro, under indictment for robbing the residence of A. J. Skillman, pleaded guilty and was given a term of two years in the penitentiary.

At the instance of the Commonwealths Attorney the case of Ed. Johnson, a negro, under indictment for grand larceny, was continued till the March term of court, on account of the absence of important witnesses.

SATURDAY.

Saturday morning the case of the Commonwealth vs. Ben Lewis and Jesse Claypool, under joint indictment for robbery, was called and went over till Monday. Judge Stout then excused the petit jurors till Monday at 9 o'clock.

In the case of Sam Calamese, the negro who was Friday given two years in the penitentiary for cutting Lon McDuffy, notice was given that motion for a new trial would be made.

MONDAY.

Yesterday the case of Ben Lewis, charged with robbery was entered into and given to the jury in the afternoon at 4 o'clock. Jury failed to agree and was discharged.

County Attorney T. E. Moore, Jr., represented the Commonwealth in the absence of Col. R. B. Franklin and Hon. E. M. Dickson represented the defendant.

This case was continued from Saturday morning on account of the absence of John Allen Dodson, an important witness. Dodson was on hand yesterday and testified that Lewis had given him a dollar to go away Saturday.

After the case was turned over to the jury Judge Stout called Dodson before him and after propounding several questions to him, fined him \$30 and 30 hours in jail for contempt of Court, saying he wished the law would allow him to fine him more. He then ordered the Sheriff to take him before the grand jury and indict Lewis for buying a witness to not appear in Court after being summoned.

The next case called for trial was Rebecca Rudisill vs. W. A. Bacon, which is a civil action.

Potatoes.

This year the potato crop of the United States is short. There has not been a big crop for several years. The deficiency has been made up by importations from Germany and Belgium, a matter which came up before the Ways and Means Committee in considering the tariff on starch.

In Germany potatoes are the big crop. Twice as many are raised there as in the United States. The German farmers raise one kind of potatoes for their own food, another kind for starch and a great many for feeding stock. The starch potatoes are as different from the ordinary edible potatoes as mangels from table beets. By having raised special varieties of potatoes for a years their starch contents has become high. Such potatoes are distilled into alcohol, which is almost as cheap in Germany as gasoline is here.

Intensive and economical farming is more necessary in Europe than in the United States, where the land is more abundant and there is fertility to waste. That is why almost all sugar-beet seed is imported, because the Germans have selected beetseed for years with a view to a higher percentage of sugar. The carelessness of American farmers in using scrub potatoes for seed is one of the principal reasons for the deficiency in the potato crop here.

It is easily possible to secure a potato yield of 250 bushels to the acre, instead of less than 100, which many farmers averaged this fall. Two hundred and fifty bushels at 20 cents a bushel would pay the farmer better than eighty or ninety bushels at 75 cents, and the great potato consuming public would be correspondingly better off.

Tariff Revision.

We shall now see what kind of tariff revision we are to have when the revision is entrusted to the "friends of tariff." The Republican platform pledges the party "unequivocally" to a revision to be made immediately after inauguration. The word "unequivocally" is of course an admission that former promises have not been kept, and the word "immediately" is a confession that the patience of the public has been strained to the point of breaking.

But the word "revision" may mean anything or nothing according to the opinion of those who interpret it. The tariff may be revised up or down or sideways, and it will be revised. Revision has height and depth; length and breadth; latitude and longitude—it has everything except certainty. Revision may be anything from the change of a comma to the repeal of the entire tariff law. Mr. Taft was very careful not to commit himself by any definite statement on the subject, but said that some of the schedules ought to be raised and others lowered, but this is not a very explicit statement. At another time he said that the revision would be a genuine one, but this, too, admits of interpretation. Again he said that the revision would probably be downward, but "probably" is not a very strong word.

The House of Representatives initiates revenue measures, and the House of Representatives is likely to be presided over by that pre-eminent standpatter, the Hon. Joe Cannon. The Senate must concur in the tariff measure, and that will be presided over by that scarcely less eminent standpatter, James Schoolcraft Sherman. What kind of a tariff revision measure will it be when it emerges from the hands of these "gods of the things as they ought not to be?"

The interests are already making

their want known; we are already beginning to hear the tales of woe brought forth by those who are standing on the brink of destruction and see catastrophe and universal destruction in any modification of the tariff. The papers that print the news that is paid for so much a line, or renovate the wornout arguments in favor of high tariff, will have plenty to do for the next few months piling blue predictions upon predictions blue, and gloomy prophecy upon prophecies of gloom. The confiding readers of the subsidized papers will be nervous wrecks by the time the bill is passed. They will feel that the country has barely escaped an industrial convulsion, and that the refusal of the Republican leaders to permit a reduction of the tariff is all that has saved the country from the demerit of bowwows, and then the industries that have shut down and thrown their men out of employment in order to coerce Congress will open up and the news columns will tell us of a restored prosperity—all due, as they will reiterate, to the confidence that the public has in Republican sagacity. This will be the course if history repeats itself; and then the grinding will begin again—the exploiting will be renewed, and the masses will continue their tribute to the beneficiaries of Republican privilege and favoritism. How long, O Lord! how long will it take the voters to understand the influences that dominate the Republican party, and through that party, the government? How long must the average man be made the toy and plaything of the favor seeking corporations that furnish the campaign funds for the Republican party and then recoup themselves through the leaders that have dictated. How long can be voters be driven, and the readers be misled?

Archery by Mail.

Playing chess by cable is a thoroughly familiar feature of that game in this part of the world, but playing active outdoor match games by mail is a new thing in the way of sporting contests. Out in Atchison, Kan., there is an archery club that recently played a match game with the Chicago Archery club by mail, each team shooting on its own grounds and mailing the scores to their opponents on the following day. And they found it exciting at that.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are affected, and many an evil deed or impure thought can be directly traced to the impurity of the blood. Foul impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is

The Retort Courteous.
Roger Minot Sherman, while argu-
ing a celebrated case, said that his
opponent could no more prove his
point than he could cut a hair length-

opponent, who happened to have a
very sharp knife, pulled a hair from
his beard and split it. As he held it
up the court began to laugh, and Mr.
Sherman quickly called out: "I said

METHODS OF COOKING MEATS.

**Water Destroys Flavor of Roast Lamb
—For Stewed Chicken.**

Never pour water into the pan in
which you roast lamb. Rub the meat
with salt and pepper and scatter flour
lightly over the top. Then cover with
the "leaf" of fat which comes with the
roast. Cover with a second pan of
same size and baste with the juices
of the meat. Water destroys the fla-
vor.

When ordering Hamburger steak,
select the meat. Do not permit the
butcher to put in tailings and dis-
colored scraps. Fresh rump or round
is best. Have it first ground, then
laid on the meat block and the onion
chopped into it with a cleaver.

To get best results in stewing chick-
en according to the good old-fashioned
methods, disjoint the fowl, wipe each
piece clean and drop into water just
coming to a boil. Cover tightly and
set back on the stove to simmer very-
gently. When about half done add
salt. When the meat is just ready to
drop from the bone you will find your
stock greatly reduced. Add an equal
quantity of milk, thicken with flour
and then add pepper and parsley
chopped fine. Serve on crisp toast.

If you intend to serve cold ham
whole parboil and then bake it.
Scrub the ham thoroughly and soak
over night in cold water. Next morn-
ing wipe off clean, lay in cold water
in a granite iron pot and bring just
to a boil. Pour off this water, add
more cold and bring to a boil the sec-
ond time; add a handful of bay leaves
and some whole cloves. Simmer for
two hours, remove from the pot, peel
off the skin, lay in a dripping pan
in which you have poured a cup of
water and one of sherry. Cover with
bread crumbs and pepper, bake until
golden brown.

PRACTICAL HINTS for the HOUSEWIFE

A little flour sprinkled in the pan
when eggs are frying will prevent the
sputtering hot fat that is so disagree-
able.

Mud stains may be removed from
tan leather shoes by rubbing them
with slices of raw potato. When dry
polish in usual way.

Finger marks on paint can be eas-
ily removed by rubbing with a clean
white cloth dipped in kerosene. The
wood should afterward be wiped with
a dry cloth.

If muslin curtains are needed in a
hurry for a kitchen or bathroom,
they can be washed, slightly starched,
shaken hard, pulled into shape and
hung up without ironing.

Sheets, pillowcases, towels, table-
cloths—all folded linens—should be
laid upon the shelves with the open
and hemmed ends toward the wall, the
round folds outward. The effect is
neater to the eye, and articles are
more easily taken out.

Small punctures in hot-water bags
or rubber gloves may be replaced by
applying a small patch of tailors'
mending tissue; moisten with common
chloroform, lay on a second patch
and moisten again, until four or five
patches have been applied. The chlo-
roform dissolves the tissue and when
it evaporates leaves a firm patch.

Fish Roe Custard.

Parboil half a pound of fish roe for
ten minutes, drain and drop into ice
water for a few moments; drain again,
dry lightly in a cloth, arrange in a
baking dish, dot with small lumps of
butter, sprinkle with salt and pepper,
and cover with a cupful of boiling
water to which a teaspoonful of beef
extract has been added; cook for 20
minutes in a moderate oven. Remove
the roe to a hot platter and break
with a fork. Add a cupful of cream
to the stock left in the baking dish,
stir in three beaten egg yolks, and

A Cure for Stained Walls.

We have a large chimney which
stained the wall paper in spite of suc-
cessive coats of size, paint, varnish
and shellac. A paper-hanger reme-
died the matter by pasting sheets of
tinfoil over the spot, taking good care
to smooth out all wrinkles. When this
was thoroughly dried the chimney was
thoroughly repapered. We have not
been bothered with any stains since.
The foil is so very thin it may be
used under any paper without danger
of showing through. Of course, the
wall was first cleaned of the old paper.
—Good Housekeeping.

Mixed Pickles.

One-half bushel of green tomatoes,
two heads of cabbage or cauliflower, a
few cucumbers chopped fine, two
dozen small onions cooked, white mus-
tard seed, two ounces of celery seed,
one-half ounce of tumeric, two
bunches of celery chopped, two and
one-half pounds of sugar, ten-cent can
of prepared mustard. Sprinkle salt
on cabbage, pickles and tomatoes and
let stand over night. Drain well, then
scald in vinegar until tender, drain,
put all together and can.

To Keep Meat Warm.

Place the dish containing the meat
on a pan of boiling water, cover over
with a metal dish cover, and over that
place a cloth. The latter will pre-
vent the gravy from drying up and
keep the meat moist and juicy.—Home
Notes.

Don't Brown the Roast.

When the meat is being roasted, and
there is danger of its becoming too
brown, place a basin of water in the
oven. The steam will prevent scorch-
ing, and the meat will cook better.

Catarrh Cannot Be Cured

With LOCAL APPLICATIONS, as
they cannot reach the seat of the dis-
ease. Catarrh is a blood or constitu-
tional disease, and in order to cure it
you must take internal remedies.
Hills Catarrh Cure is taken internally,
and acts directly on the blood and mu-
cus surfaces. Hall's Catarrh Cure is
not a quack medicine. It was prescrib-
ed by one of the best physicians in this
country for years as a regular pre-
scription. It is composed of the best
tonics known, combined with the best
blood purifiers, acting directly on the
mucous surfaces. The perfect combi-
nation of the two ingredients is what
produces such wonderful results in cur-
ing Catarrh. Send for testimonials

Reassuring.

A lady on one of the ocean liners
who seemed very much afraid of ice-
bergs asked the captain what would
happen in case of a collision. The
captain replied: "The iceberg would
move right along, madam, just as if
nothing had happened," and the old
lady seemed greatly relieved.—Suc-

Had a Close Call.

Mrs. Ada L. Croom, the widely
known proprietor of the Croom Hotel,
Vaughn, Miss., says: "For several
months I suffered with a severe cough,
and consumption seemed to have its
grip on me, when a friend recom-
mended Dr. King's New Discovery. I began
taking it, and three bottles affected a
complete cure." The fame of this life

Hard on Second Hubby.

Enpeck's will was being drawn up
by the lawyer. "I hereby bequeath all
my property to my wife," dictated En-
peck. "Got that down?" "Yes," an-
swered the attorney. "On condition,"
continued Enpeck, "that she marries
within a year." "But why that condi-
tion?" asked the man of law. "Be-
cause," answered the meek and lowly
testator, "I want somebody to be sorry
that I died." dec

Where Bullets Flew.

David Parker, of Fayette, N. Y., a
veteran of the civil war, who lost a
foot at Gettysburg, says: "The good
Electric Bitters have done me worth
more than five hundred dollars to me.
I spent much money doctoring for a
bad case of stomach trouble, to little
purpose. I then tried Electric Bitters,
and they cured me. I now take them

Wit with a Sting.

The French are undoubtedly a hu-
morous and humor-loving people;
only, sometimes, this blithesome, ef-
fervescing quality goes astray. In-
stead of the sparkle in the glass of
champagne, it turns, by some subtle
chemistry, into an acid sort of drink,
which leaves a disagreeable taste in
the mouth.—Pall Mall Gazette.

Would Mortgage the Farm.

A farmer on Rural Route 2, Empire,
Ga., W. A. Floyd by name, says:
"Bucklen's Arnica Salve cured the two
worst sores I ever saw on my hand
and one on my leg. It is worth more
than its weight in gold. I would not
be without it if I had to mortgage the
farm to get it." Only 25c at Oberdor-

You Know Both.

polite to your face, but who talks
about you after you are gone. There
is another kind of man who grumbles
about you to your face and lets you

with all his politeness.—Newark

300 Miners Entombed.

From 125 to 300 miners were entombed Saturday by an explosion in a coal mine at Marianna, Pa., and it is believed all of them are dead. The exact cause of the accident is not known. The force of the explosion blew some of the woodwork at the mouth of the shaft a distance of 2,000 feet. Many mutilated bodies have been taken from the mines and the horrible work continues.

Congress to Convene.

The Democratic members of the House of Representatives will caucus on December 5 to choose a minority leader in place of John Sharp Williams whose resignation, issued last June, will take effect December 1. This and other activities at Washington call attention to the fact that the present Congress convenes next week for the short session, with which its eventful life will close. The Ways and Means Committee will continue its hearings on the subject of the revision of the tariff but there is little expectation of tariff legislation at this session.

MATRIMONIAL.

—Miss Sallie Williams and Mr. Ed. Herrin surprised their friends on Sunday by announcing that they had been united in marriage at Lexington about three weeks ago. The bride is the attractive daughter of Mr. Thomas Williams, of South Main street, and the groom one of our popular young business men.

—We are in receipt of a handsomely engraved invitation as follows: "Mr. and Mrs. James Henry Butler request the honor of your presence at the wedding reception of their daughter, Margaret Prescott, and Mr. William Merritt Shobe, on Tuesday afternoon, December the fifteenth, nineteen hundred and eight, from three until five o'clock 330 Vine street, Paris, Ky."

Gold Medallion Missing.

For many years the solid gold medallion presented to Governor Isaac Shelby by Congress for valor displayed in the War of 81 has been carefully kept in the big vault in the outer office of the Governor of the State but in some way it has mysteriously disappeared and no one can be found who knows what has become of it.

Good Cough Medicine for Children.

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F.F. Starcher, of Ripley, W. Va., says, "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by W. T. Brooks. You need no other guarantee. dec

In Hands of Governor.

The verdicts of the Court-martial in trials of members of the State Guard charged with conduct unbecoming soldiers have been turned over to Governor Willson. The trial of Captain J. R. Sams for failure to make reports to ranking officers concluded the Court-martial. Governor Willson will announce the verdicts in a few days.

Beware of Frequent Colds.

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you crue a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White, of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. Now my throat and lungs are sound and well." For sale by W. T. Brooks. You need no other guarantee. dec

Splendid Prospects.

Despite the drought, Commissioner of Agriculture Rankin is receiving reports from every section of the State that the farmers have splendid prospects for crops next season. The recent rain have saved the wheat rye and barley sown during the drought.

Muscular Pains Cured.

"During the summer of 1903 I was troubled with muscular pains in the instep of my foot," says Mr. S. Pedlar, of Toronto, Ont. "At times it was so painful I could hardly walk. Chamberlain's Pain Balm was recommended to me, so I tried it and was completely cured by one small bottle. I have since recommended it to several of my friends, all of whom speak highly of it." For sale by W. T. Brooks. You need no other guarantee.

Green River Tobacco Sold.

The board of control of the Green River Tobacco Grower's Association has closed a deal with eight representatives of tobacco companies for the sale of 20,000,000 pounds of the 1906 crop of tobacco, at an average price of seven cents per pound. The association comprises five counties, and the amount they will receive will be about \$1,400,000. The growers in the pool will meet in Owensboro December 5 to ratify the sale.

Divorce Record.

Nearly one million divorces were granted in the United States in the score of years ending in 1906. Of these 30,641 were registered in the State of Kentucky, 30,447 in Tennessee and 60,721 in Indiana. While popular impression, owing to liberality of divorce laws has stamped South Dakota as being the Mecca of estranged couples, it in reality ranks far down in the list, Illinois, with 82,209 exceeding any other State, with Ohio second and Texas third. The divorce rate in Kentucky in 1900 was eighty-four in every 100,000 of population. The divorces granted in the State from 1867 to 1886 was 10,248.

Thoreau's Sensible Answer.

When the forest-haunting hermit Thoreau lay on his deathbed, a Calvinistic friend called to make inquiry regarding his soul. "Henry," he said, anxiously, "have you made your peace with God?" "John," replied the dying naturalist, in a whisper, "I didn't know that God and myself had quarreled!"

THE SECRET OF SUCCESS

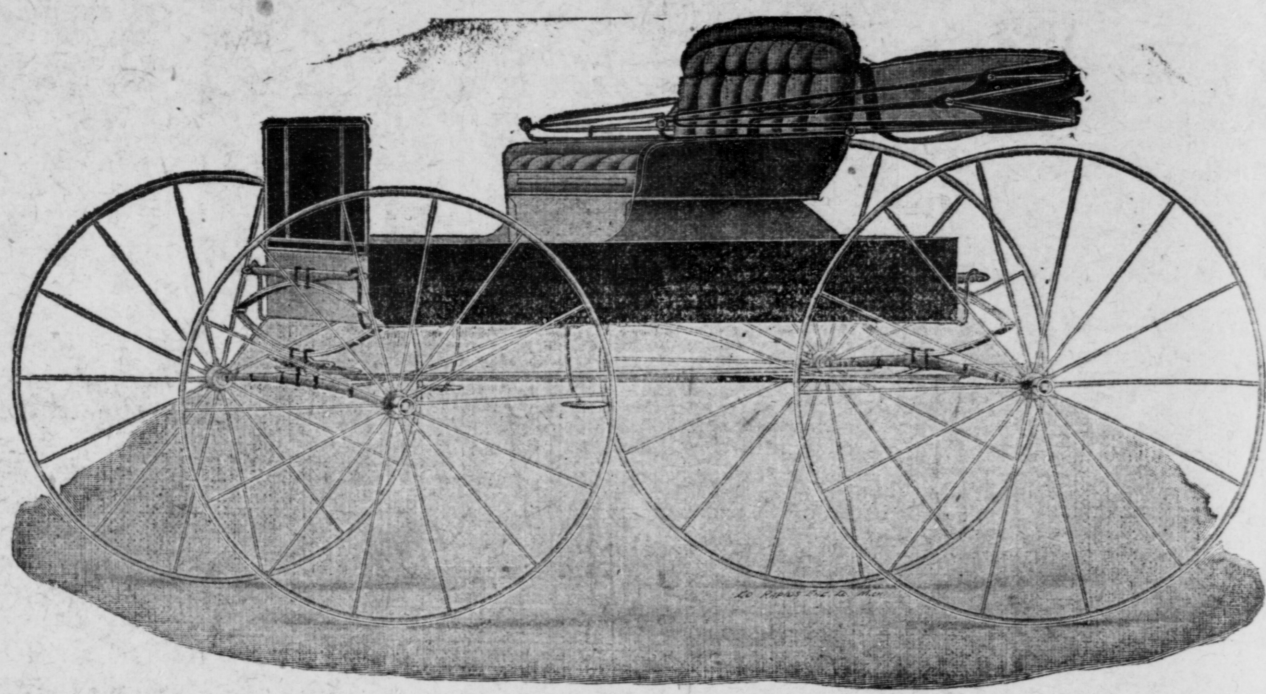

"No, Sir! You cannot palm off any substitute on me. I've been using August Flower since I was a boy, and I'll have no other."

Forty million bottles of August Flower sold in the United States alone since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unflinching success in the cure of indigestion and dyspepsia—the worst enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders—that it is the best of all liver regulators? August Flower has a matchless record of over 35 years in curing the ailing millions of these distressing complaints. Two sizes, 25c and 75c. All druggists.

Is Turning White.

Frankfort has a remarkable scientific phenomenon which is attracting much attention from physicians. Ben Sayers, a negro, has turned white as a result of coming in contact with poison ivy. The scientific explanation of the change is that the pigment of the body has been destroyed by the poison or by the medicine which was used to counteract it.

Congestion in New York City. When horse cars took the place of stages in New York city it was thought that congestion in travel would be avoided, but it wasn't. Then it was said a cable road would help relieve it and elevated trains would surely accomplish the purpose. Still the congestion continued. Then subway trains were brought into use, and the congestion is worse to-day than ever before. The city grows faster than the means of transportation.

Judge Hager President.

Announcement was made Saturday of the formation in Louisville of the Fidelity Guaranty Company, with a capital stock of \$500,000. Former State Auditor S. W. Hager was elected president of the new company, W. J. Day, vice president and H. K. C. e of Owensboro, secretary. The new company will do a general investment business and will finance legitimate business enterprises all over the State.

Booe Held to Grand Jury.

Judge Charles E. Booe, charged with raiding the State by false vouchers for very and obtaining money by a false token, waived examination at Frankfort Friday and was held to the grand jury under a bond of \$5,000. M. H. Thatcher, State Inspector, filed an itemized list of Judge Booe's peculations during his term as Claim Clerk under Auditor James.

Hitchcock Placed.

It was authoritatively announced Friday that Frank H. Hitchcock would be Postmaster General in Judge Taft's Cabinet. The other selections will not be made known until the President-elect is ready to announce his official family.

Lamphere Satisfied.

Ray Lamphere, convicted of arson by the jury in the Guinness murder trial began serving his term at Michigan City State prison Friday. The sentence is intermediate from two to twenty-one years. Lamphere was gratified he did not get a life term. The meeting between the prisoner and his mother, before his departure for the penitentiary, was very pathetic.

An Old Criminal.

Ellen E. Peck, notorious twenty years ago, and called the "Confidence Queen" was arrested in New York on the charge of swindling a firm out of \$2,000. The woman is 80 years old.

Lebus for Governor.

The success in steering the Burley tobacco pool to victory and the natural enthusiasm which the distribution of about \$15,000,000 from the recent tobacco sale has caused among the tobacco growers of the State, has caused much discussion into the Burley belt of Clarence Lebus, president of the Burley Tobacco Society, for Governor of Kentucky at the next election. It is said by his admirers that Mr. Lebus would command the support of not only the tobacco growers of the Burley belt, but of the planters and farmers all over the State, regardless of political affiliation, and this support, it is argued, would guarantee his election to that which placed Gov. Luke P. Blackburn in the executive chair of Kentucky many years ago.

The above we believe to be newspaper talk and nothing more. Mr. Lebus has been a life-long Republican, and it will take more than a wave of sentiment to ever put another Republican in the Governor's chair in Kentucky.

Boy Murderer.

Charged with murder, Rodman Clark a country boy, was arrested and lodged in jail at Paducah. He is alleged to have forcibly poured whisky down the throat of the seventeen-year-old son of Ira Davis, a farmer, which resulted in the lad dying from convulsions a few hours later.

Great Racing Proposition.

Matt J. Winn, the Louisville turf magnate, has been asked to assume the management of the greatest horse racing proposition in the history of the turf. This is no less than racing in a circuit composed of five of the principal cities of Mexico, and the huge scheme has not only the moral sanction, but the financial backing of the Mexican government. Mr. Winn has had a conference on the matter with Algernon Dangerfield, of New York, secretary of the Eastern Jockey Club, and it was decided that Mr. Winn and Mr. Dangerfield will go to Mexico about the first of the year to look over the proposition.

Educational Rally.

There was a good attendance at the educational rally in the chapel of the new City School building Sunday evening. Superintendent F. L. McChesney presided at the meeting, making a few preliminary remarks. Dr. F. W. Hinit, President of Central University, Danville, delivered the principal address of the evening.

Dr. Hinit is considered one of the leading college men of the State, and his address showed that he was well posted on educational matters. He said that the rural schools in this State were in a deplorable condition. His address was pronounced by all as one of the ablest ever heard in our city. It would be well if such educators and speakers as Dr. Hinit would be sent in every community in Kentucky, then probably the desired effect would come.

Mrs. Louise Wilcox St. Clare, president of Hamilton College, Lexington, also delivered an excellent address, which was highly enjoyed and appreciated. She is one of the leading educators of our State and stands high in intellectual circles.

Judge Denis Dundon also gave a good talk on educational matters. The singing by the quartette, Mrs. Frank Pithian, Miss Flora Hill, Clay Sutherland and C. B. Mitchell, and the duet of Mrs. Owen L. Davis and Miss Flora Hill, were highly enjoyed by the audience.

THEATRICAL.

"PAID IN FULL."

—"Tempest and Sunshine" by the W. F. Mann Dramatic Co. will be presented at the Millersburg Opera House on Wednesday evening. This is a strong piece, full of lively dramatic situation and will be presented by a strong company. Admission 35 and 50 cents.

—At the Lexington Opera House next Monday and Tuesday and Tuesday matinee the Wagerhals and Kemper Company will offer Eugene Walter's successful play, "Paid in Full," an announcement which is received with decided interest by local theatre goers. "Paid in Full" is one of the most notable hits of recent times. It is now in its second season in New York City and was a tremendous hit in Chicago where it ran all summer. It is a play of today and its story is based on a phase of American life which abounds in every big city. On the opening night in New York the dramatic writers as well as the public were most enthusiastic over this work by a young playwright who, though he had written two plays previously, was really unknown in New York and in the big theatrical centers. The young playwright, though his years are few, has had wide and varied experiences, viewing the world from many points and observing understandingly its different phases.

\$10,000 Damage Suit.

B. E. Messick, of Cincinnati, has brought suit in the United States Court at Covington, for \$10,000 damages against Robt. Goggin, Jailer Geo. W. Judy, and his bondsmen, John T. Hinton and T. J. Judy, for false imprisonment.

It seems that Mr. Messick's wife had preceded him from Chicago and rented a house on Houston avenue, her husband to follow as soon as he finished his work on a steel building being erected in that city. Mrs. Messick wrote her husband when he arrived in Paris to come to Houston avenue, the third white house after he crossed the bridge.

Mr. Messick arrived on the 10:30 p. m. train on the night of the 13th. He proceeded down Main street and inquired the way to Second street. He was directed to Second street and to turn at the bridge, which he did. The third white house was Mr. Goggin's home.

The ladies seeing Mr. Messick hanging around, like he was undetermined whether or not to enter, frightened them, as there had been several burglaries in that neighborhood, and Mr. Goggin came out and arresting him took him to jail. He was locked up in jail over night and released the next morning after it being found out that Mrs. Messick lived in the third white house after crossing the bridge at the other end of the street.

Mr. Goggin simply mistook Mr. Messick for a burglar, for he or Jailer Judy are the last two men in Bourbon county that would intentionally do anyone an injury.

"Kentucky."

We have upon our desk "Kentucky," an illustrated poem, in pamphlet form, which was presented to us by the talented authoress, Mrs. A. P. Allis, who is now in our city at Mrs. Camila Wilson's on High street. It is indeed a work of beauty and reflects much honor upon the authoress. Besides the beautiful words of the poem, the book, or pamphlet, is filled with half-tone pictures of many typical Kentucky scenes, residences, etc. It is gotten up in a very artistic style and should be on every library table in Kentucky. They are being sold for 50 cents and are meeting with ready sales throughout the State.

We congratulate you upon this successful issue of your long struggle, for you who have stood firm in the face of good report and evil report through weary months of waiting and hardship are the men who have won the victory.

The purchasers are ready to receive this tobacco as rapidly as it can be delivered, and we ask you to render us all the assistance you can by completing your pricing and sending in your type samples with as much promptness as possible. We desire to warn you against transferring your tobacco or certificates to speculators, not because you are selling property which has already been sold and thus violating the laws of our Commonwealth and laying yourself liable to heavy penalties, but because you deserve the entire profits of this transaction and because in a very short time your money will be paid you. Pay no attention to those who tell you you will have a long time to wait, for the distribution will be rapid and prompt. An order has been passed for the immediate distribution of 8 per cent of the 10 per cent reserve fund now in hand, and the money from the present sale will follow close upon the delivery of your tobacco.
